Thank you, my buddy!

1A Chiu Wai Him

Anson is my buddy.

He is six years old

He is in Class 1A.

He has short hair.

He likes cars.

I thank him for helping me put my pencils in my pencil case.

 2nd

Thank you, my buddy!

1A To Chin Ue

Paco is my buddy.

He is six years old.

He has short hair and big hands.

He likes dinosaurs.

Thank you for your help, Paco!

I like you.

 3rd

Thank you, my buddy!

1C Cheung Pak Yan

Charlotte is my buddy.

She is six years old.

She is in Class 1C.

She likes teddy bears.

She has long hair and big eyes.

I want to thank her for playing with me.

P.2  1st

I love my school!

2C Leung Sum Yu

My favourite place is the art room.

It is on the ground floor.

I can see a lot of colour pencils, colourful crayons, beautiful pictures, pencils, erasers, rulers and a whiteboard.

I can draw pretty pictures and colour the pictures.

I like it best because I like drawing.

 2nd

I love my school!

2C Fung Hei Man

My favourite place at school is the playground.

It is on the ground floor.

I can see a jumping plane game and a frisbee there.

I always play with my friends there.

I like it best because it is big and has more games.

 3rd

I love my school!

2C Leung Tsz Hong

My favourite place at school is the playground.

It is on the ground floor.

It is big and indoors, so we can play or have PE lessons even on rainy days.

I like to play frisbee with my classmates there.

Thank you so much, Miss Yung!

3D Tang Kiu Hei Daphne

I want to thank Miss Yung because she always tells me to keep on with what I want to do and she always says that I need to keep on with my English.

Miss Yung teaches us English and General studies. She is tall and thin. She has long hair, but she doesn't wear glasses. She has small eyes too.

At recess, she likes to talk with students on the third floor, check our homework and teach us how to do the corrections.

I want to thank her because she always teaches me my English and General Studies homework.

 2nd

Thank you so much, Mr Wifi!

3D Yiu Ying Tung

I want to thank Mr Wifi because he helps me to learn English. He has a pair of glasses. At recess we talk to each other.

He is a very nice teacher because he does not shout at students. I like his lessons very much.

He is very funny and careful, and he is always happy.

He loves to help us with our English homework.

I want to thank him, and I hope he teaches us forever.

 3rd

Thank you so much, Miss Angel!

3B Chan Wai Ching

I want to thank Miss Angel because she takes care of us and looks after us!

She teaches us English and General Studies.

She is short and thin. She wears glasses.

She teaches us to do English and General Studies homework in tutorial lessons!

I like Miss Angel very much!

The Happiest Experience at School 4B Lau Pak Fun

The best experience I had at school was the day we had a picnic in Kwun Tong. First, we went on a coach to get to the destination. After a long ride, we finally arrived. The teacher gave us a map and showed us the place to meet later. After that, my group and I explored the place. While we were exploring, we found a park, we were so excited to play in there. We loved to play on the zipline, so we played a lot of times. Furthermore, we went back to the meeting point and started eating snacks like jelly, candy, biscuits and more. In addition, we played 'Red Light, Green Light' and 'Hide and Seek?'. After a while, we needed to go back to the coach. We didn't want to leave but it was getting late. To sum up, it was a fantastic experience. My favourite part was when we played on the zipline because it was fun.

The Happiest Experience at School 4B Chan Tsz Yip

My happiest experience at school is the day we had our Chinese New Year Party. It was held in January. We could wear traditional clothes to school. On that day, we brought a fast pass to play games in the covered playground. My friends and I were thrilled to play the games! After that, I thought there was money in the red packet. Then I opened it. There was only a chocolate coin and a piece of paper inside. On the paper there were some words saying 'Happy New Year' My friends laughed at me because when I ate the chocolate, I forgot to unwrap it! Oh dear! My favourite part was that we could bring snacks to the school and give them to our friends. I got a lot of candies on that day. It was the most wonderful day at school ever!

The Happiest Experience at School 4A Man Hei Nok Dracen

Last year, I had my happiest experience at school. That day was a birthday party. We played a lot of games and ate a lot of yummy food. 'Happy birthday to you! Happy birthday to you!' My classmates and teacher sang this song for me in the classroom. They gave some snacks and gifts to me too! After that, we started to play some games. The first game was hopscotch. 'One, two, three? Oops!' When we were playing the game, someone fell onto the floor! It was so exciting! The second game was 'Watch out! It is ice-rolls!' The game was a little bit chaotic and difficult. We needed to go in front of the ice-rolls on the TV. A lot of people failed because the ice-rolls 'touched' them! After we played these games, we were so tired, but we wanted to play again! On that day, we were so happy and joyful. It was unforgettable. I hope we can play these games and have a party again soon!

Thank you so much, my dear school! 5D Ma Yiu Fai

Thank you very much, my dear lovely school! You have taught me tons of things since 2018 like English and Chinese. Now, let's talk about the past when I went to school. I first came to my school in 2018. On my first day to school, I was very afraid at first. When I took my first step in school, the prefects said 'Good morning!' to me. How polite they were! It cheered me up very much and taught me to be polite too! Then I carried my school bag which was as heavy as a giant rock to Class 1A. I sat on the chair. It was relaxing. Soon in 2021, the subjects were even more difficult. I kept failing in my tests. That was why I started to have less hope. However, I didn't quit. I kept working hard. I did what the teachers said 'Never give up on your goals.' After months of hard work, I passed all the grades except for Putonghua and Chinese listening. However, I will correct the mistakes I have in the coming future. Anyway, I just want to say 'thank you, my dear school!'

Thank you so much, my dear school! 5C Tang Ngong Ping Ashley

I can't believe that I have studied in this school for almost five years! I want to thank my wonderful school for its teaching. My teachers taught me all kinds of stuff. I want to thank my Primary one teacher for telling me to study hard and not to give up easily. When I was in Primary three, my Chinese teacher helped me improve my Chinese and my art teacher taught me how to draw well... I have learnt a lot in this school and got certificates for my study in this school too. I learnt to behave well and respect others. I learnt to be always kind and help others. I learnt to not to give up easily and set a goal in life. I have got four certificates in my English exams. I have got a few musical prizes too. I hope this school can keep on teaching other students and help them improve. I really want to thank you and wish you a happy 40th Anniversary!

Thank you so much, my dear school! 5D Wan Sum Yu

I have studied here for almost five years and I have joined many activities that were hosted by the school. I have learnt many things in the past years such as Chinese, English or some important things like manners. The activities which were hosted by my teachers are excellent. They not only let all the students have fun, they also sometimes teach us things we need to help people in need. My teachers are very instructive and informative when teaching. They always repeat their sentences when a student forgets or cannot hear. Sometimes if students don't get the idea of what the teacher is saying, the teacher sometimes tells the class a little story about what they don't understand. They are generous too. When a student behaves well or answers a question correctly, they award them with a gift. My school gives me both happiness and knowledge. I don't think any other schools would make me happier than my school. Thank you so much, my dear school!

A Touching Experience 6A Chan Wing Tung

This is my last year of primary school. Although not many special things happened, there are still some touching experiences that are unforgettable for me. One cold winter day, my classmates and I were having an enjoyable PE lesson at school. We were learning how to shoot the hoops. Firstly, we did some stretching before we run because we didn't want to get hurt. Then we practiced in four groups. I was very nervous because I was bad at basketball and I surely wouldn't score. While we were practicing, I didn't pay attention to the ball and I didn't notice that there was a 'flying' ball coming towards me. It ended up hitting my nose. 'Ouch!' After that, my eyes started filling with tears and I cried and cried. My classmates quickly calmed me down. My best friend Cassidy didn't play in the basketball competition but stayed with me! I was touched and asked her to go and play but she answered, 'That's fine. I bet my face is going to be hit by the ball just like you!' We laughed together and I finally calmed down. I am grateful to have a good friend like Cassidy. We will stay together no matter what happens in the future.

A Touching Experience 6A Ng Sau Chit Ethan

I had a friend called Eason. We have known each other since we were in K3. When we were in primary two, we became good friends. He was one of the smartest boys in the class. Everybody in the class loved him because he was always gentle and protected us when we were in trouble. My classmates and I always invited him to our birthday parties. We always gave him gifts because he always protected us and never bullied us. Eason and I were inseparable. But something bad happened when we were in primary five. One day I saw Eason sitting at the corner of the classroom. My classmates and I asked him what happened but he just stared at the wall and didn't say a word. I was confused and scared because he was always outgoing and talkative. He always played with us but at that time he did not answer us. We were very annoyed so we told him that if he didn't tell us what happened, we would all force him. Finally, he revealed the truth. He said, 'I'm sorry! My family is going to move to the United Kingdom. I want to tell it to you later because I think you would be unhappy.' We were all shocked by what he said. We all asked him when he would leave Hong Kong and he said three days later. We hugged together and cried. I was weeping in the lessons for the whole day. On that day after school, we bought some presents and wrote some cards for him. We all bought him his favourite things so that we can surprise him the next day. We surprised him by making a mini party for him during the lunch recess. He was in tears because he couldn't believe what we had prepared for him.

A Touching Experience 6A Kwok Ming Chau

This is the last year to study at my primary school. Over the past years, I had an unforgettable and touching experience that changes my life a lot. I have had an illness since I was born. It made me walk very slowly. When I was in primary four, my classroom was on the fifth floor. Every time after PE lessons or computer lessons, we need to climb up the stairs to get back to the classroom. I always walked really slowly because I was so tired. However, no matter how slow I was, my classmate Wing Chun walked behind me until we got back to the classroom. I always felt touched at those times and I learnt that friendship is the most precious in the world. I am very grateful that I have Wing Chun to be my good friend. If other people have any problems that I can help, I will try my best to help them solve the problems.
