

My Favourite Family Member

4D Melody Yeung

My favourite family member is my mother. Her name is Sally. She is fat and short. Her eyes are small, her nose and mouth are big. She looks like a cat.

She is the most hard-working person in my family. She prepares breakfast for me every day. Then, she takes me to my school bus every day. After that, she goes to her office.

She is very funny too. She always tells jokes to me and makes me laugh. She looks like a child when she plays with me.

I think she is the most humorous and the best person in my family. I like her very much.
