

My Favourite Family Member

Sam Cheung, P.4A

My favourite family member is my mum. She is a very good mother. She is short, but she can do all the housework. She is fat, but she can jump very high. She has very big eyes. She is very good at Chinese and English. I think she is a smart mother.

She is hard-working at home. She sweeps the floor and washes our clothes every day. She is very good at cooking, because the food she cooks is delicious. I think many people would like to employ her as a cook.

My mum is also the most humorous family member in my family, because she always tells jokes.
