

My Favourite Family Member

4D Marco Chiu

My favourite family member is my father. His name is Eric. He is tall, fit handsome and clean. He plays table tennis every day.

He is the most hard-working person in my family. He always works till ten o'clock and he also cleans the house.

He is a good-tempered person. He does not shout at me and he teaches me to play chess. He is a brave person, because he helps firemen put out fires.

I like him very much because he is very nice.
