

# My Favourite Family Member

Joey Fung, P.4B

My favourite family member is my mother. She only has a Chinese name. She is 155cm tall and thin.

She is a hard-working person, because she helps me with my homework everyday. She is humorous too, because she always tells jokes.

I think my mother is the most humorous person in the world. I love her very much. And she also cooks delicious foods for us, like vegetables, fish, pork and sausages.
