

# Hong Kong

4A Ophelia Pak

Today Hong Kong is a crowded, beautiful and tidy city. People like eating different kinds of food, like Japanese food, Indian food, Italian food and French food. People live in villas, apartments and public estates. They travel by LRT, bus, minibus and by taxi. Children do a lot of activities during their leisure time, such as playing electronic games, the stone-paper-scissors game, hopscotch and hide-and-seek.

I think life in Hong Kong is busy. I like to live in Hong Kong because the buildings are modern and beautiful.
