

My Favourite Family Member

.4A Peter Man

My favourite family member is my father. His name is John. He is fifty years old. He is tall and handsome.

He is the bravest and smartest person in our family. He is a policeman so he never gets up late. He can catch thieves very fast. If the thief wants to attack my father, my father will stop him with a gun.

He is one of the most good-tempered persons in our family. He seldom shouts at me, so I think he is the best father in the world.
