6D Poon Cheuk Ying, Sally

My dream job is to be a businesswoman when I grow up. If I become a businesswoman, I will run a lot of shops and make a lot of money. Being a businesswoman, I need to be clever, accurate and efficient. I need to have good computer skills and learn many languages too.

Why do I want to be a businesswoman? When I was ten years old, I saw a businesswoman. She was talking on her mobile phone. Oh! She was talking to the richest man Li Ka Shing. And she had a lot of things to do.

Now I have to study hard, read more books about business and learn how to calculate faster if I want to be a businesswoman.
